[Fig. 2]

View observed from the top View observed from the side

- 5 1: Retardation film B
 2: Retardation film B
 3: Adhesive layer (overlap width)
 4: Non-adhesive area (area devoid of overlap width)
 5: Area where adhesive is absent but substrate is
 10 present.
 6: Substrate
 7: Area where neither adhesive nor substrate is
 present (laser beam transmission area)
